PROJECT PRO

POA

As the size of the project increases so does the complexity and risk. Project Pro is designed to give everyone the tools they need to manage this risk on-site when working with multi-dwelling residential builds and then record all their activity to give you the peace of mind you need to get on with the job at hand. Suitable for Multi-dwelling residential builds that are 3 or more dwellings (whether attached or detached), each with access at ground level.

- 2 x Hazard Board with QR code
- Customised SSSP for the project (reviewed by a H&S Advisor)
- Large HazardCo mesh fence banner
- Full access to the HazardCo system to guide for anyone scanning onto site (Project Plus)
- In app guided activity to support learning
- Cloud storage of all safety documentation completed on site
- Reporting and analytics to identify opportunities and trends on site
- Support from our Customer support and Advisory teams
- Plus more advanced tools and features!

TEAM PACK PLUS

\$319+ GST

The Team Pack Plus is designed for workers who move regularly from job to job and are not usually managing larger building projects.

Each Team Pack Plus includes:

- A sturdy, water-tight Site box that acts as a portable Hazard Board that is taken from job to job
- 1KG fire extinguisher
- Premium First Aid Kit
- Air horn to attract attention during an emergency
- A QR code to keep inductions simple and effective.
- Resources to help you manage safety at work.

Dimensions: 160mm depth x 440mm height x 270 mm width

EMERGENCY BOX

\$319+ GST

The Emergency Box is designed to provide the essentials to respond to an emergency situation in all types of workplaces.

- Air horn to attract attention during an emergency
- Premium First Aid Kit
- 1kg dry powder fire extinguisher - certified and tagged to NZS 4503
- Emergency plan inside the lid to keep everyone informed
- Sturdy watertight construction
- Made from high-quality UV resistant Polyethylene
- Fix to a gate, fence, wall or machinery with the included fixings

Dimensions: 160mm depth x 440mm height x 270 mm width

Have more than one site entry/exit? We suggest you grab additional hazard boards for your site at \$40 + GST each.
Dimensions: 840mm height x 590mm width

[illegible]

A Scan Board is a durable corrugated plastic (corflute) sign with a QR code and scan in/out instructions. They're perfect for placing around your site to remind your team and contractors to complete their induction and scan in and out each day. \$20 + GST each. Dimensions: 300mm x 300mm

Corflute

FENCE BANNERS

\$95+ GST

Our fence banners have eyelets approx. every 500mm for attaching to site fences with cable ties.

Dimensions: 2.4m x 1.6m

HAZARDCO SERVICES

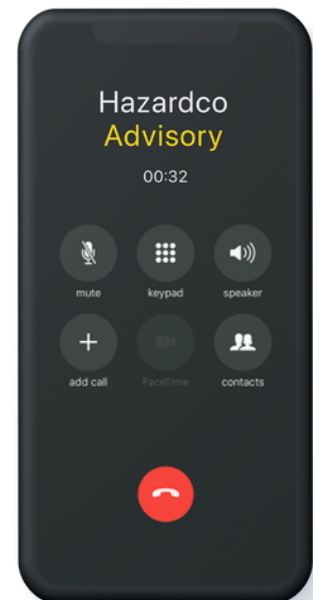

Get extra health and safety support when you need it

When you're a HazardCo member, you can call our awesome team of health and safety experts for free advice and incident support.

The team also offers a whole bunch of additional services at a special rate, exclusively for members. Whether you want some hands-on help in setting up the system or you want someone to visit your sites to help you out with reporting, we've got you covered!

We can help you out with a whole raft of H&S support, such as:

- H&S Advisors - If you're looking for an ongoing H&S consultant, we offer affordable rates exclusively for HazardCo members. We can provide you with a virtual or in-person consultant that knows construction H&S like the back of their hand.
- Document creation/review/migration - We'll develop custom H&S documents for your business or check your work to make sure it's up to scratch.
- Assisted pre-qualification - We'll review your contractor's pre-qualification responses.
- On-site Support - We can come out to your site and complete a site review for you or even run a toolbox training with your team.
- Health & Safety Assessment - We'll assess how well your business is currently managing H&S and provide you with an improvement plan.

Get in touch to learn more and see what else we can offer you.
